LI'L ABNER

If Li'l Abner (Mark Tiemann) had his way he'd druther do without Sadie Hawkins day, but the government has other plans. At the Cornpone meeting the Dogpatch citizens learned they are the most unnecessary spot in the U. S. A. The Dogpatchers search frantically for something necessary. Mammy's Yokemberry (Regina Nergenah) tonic is taken to Washington to be tested.

Meanwhile, General Bullmoose (Randy Bumgarner) is swapping with Evil Eye Fleagle (Brad Bartholomew) to steal the formula. During the race Fleagle's whammy allows Appassionate Von Climax (Gayla Swagmeyer), Bullmoose's secretary to catch Abner. Too late Abner declares his love for Daisy Mae (Betty Meyer).

Back in Washington Abner is in grave danger, he is saved by Earthquake McGoon (Mark Jones) who wins Daisy Mae by saving Abner's life. Again Abner claims Daisy Mae after taking Pappy's (Jay Wessler) secret antidote. The stature of Jubilation T. Cornpone is declared a National Shrine. The bombing is stopped and Dogpatch is saved.
